

2006 NEWBURY MASTER PLAN

CHAPTER IV

COMMUNITY FACILITIES & SERVICES AND RECREATION

Recommendations: Cemeteries

1. The Cemetery Trustees should continue to participate in the Capital Improvement Program (CIP) process to fund capital needs.
2. The Town should consider hiring a Cemetery Sexton.
3. Additional land(s) will be needed in the future for expansion of the existing cemeteries or locating site(s) for new cemeteries. The Cemetery Trustees and the Town should be attentive for land acquisition opportunities to meet this future need. Good land adjacent to existing cemeteries would be most desirable. Since the need for this land will be well into the future, it could be “land banked” and used for an interim use until the Cemetery Trustees need it for expansion.
