

## **New On-Line Assessing and Mapping Information**

The Town of Newbury has combined its interactive mapping and assessing information onto one website. This was done to provide on-line mapping as well as assessment information in the most cost-effective manner.

Many of you are familiar with accessing assessing information using **Vision Appraisal**. We have ended the on-line arrangement with Vision and have combined the assessing database with on-line mapping using a company called SMS (Sustainable Map Solutions). While we will continue to use Vision Appraisal for our in-house software, we will no longer use Vision's website for on-line data.

Newbury's website will be linked with similar data for the towns of New London and Sunapee, so you will be able to access information for all three towns in the same location. It is called the Tri-Town. You can go to any of the respective town web sites -- [www.nl-nh.com](http://www.nl-nh.com), [www.newburynh.org](http://www.newburynh.org) or [www.town.sunapee.nh.us](http://www.town.sunapee.nh.us) --and proceed to the link to the Assessing Department. Look for the link to on-line maps or GIS maps, and bookmark the site for future reference.

There will be two options available: you can choose to just look at assessment data or you can look at the maps (including aerial photos) along with the assessment data. The website allows you to query by Owner Name, Property Location, and Map/Block/Lot Number or by clicking on the map and selecting a property.

The only drawback this new site has is there will be no building sketch. However, we will add an icon to the website that enables you to immediately e-mail town personnel who will e-mail you the sketch.

If you have any questions, please feel to contact me @ [assessor@nl-nh.com](mailto:assessor@nl-nh.com)

Thanks for your cooperation!

Normand G. Bernaiche CNHA  
Town Assessor
